The motorboat weeders are not built in series but designed with the customer to meet the specific job requirements

Material: steel, stainless steel or aluminum.

Technical Description: Trattasi a **small motorboat** designed to only **cut algae, reeds and bushes** on the shore, in the canals or small streams.

The material cut in the middle of the **cutter bar overturned T placed at bow**, tilt to the right and left by 90 °, it remains to float in surface and, thanks to the current is conveyed in a **single collection point** generally represented by small dams consist of **gates** ever made by us.

These models of boats, which usually do not exceed **mt 6:00 in length**, can be of two types:

- **Monoeliche**, namely a propeller alone;

- **Bieliche** , ie provided with two screw propellers with antialghe system, adjustable and tiltable, the latter particularly suitable for navigation in shallow water (also 30 cm).
