Overview:

Piropo IV is a classic powerful Perini Navi sailing yacht from the golden age of Perini's 46m series and has had only one owner since new. Now a new owner can enjoy the sheer thrill of owning one of these truly impressive sailing yachts capable of circumnavigating the world in luxury. A beautiful example of the popular 46m series from the renowned Italian shipyard Perini Navi, this is an exceptional opportunity on the market. With a steel hull and aluminium superstructure powered by a ketch rig, she can reach a maximum speed of 14 knots and cruise comfortably at 11 knots.

Her sophisticated exterior design and engineering package is the in-house work of the talented and experienced Perini Navi team combining perfectly luxury, performance and comfort. The classic interior offers voluminous guest spaces accommodating eight guests in four cabins. There is also an extended flybridge ideal while cruising or for relaxing and dining at anchor. Privately used throughout her life, the yacht has been lightly used so presents well as a sound platform for a new owner to build on and enjoy.

Ownership also gives access to the most exclusive club in the world, the Perini Navi Owners', and eligibility to participate in the most glamorous and elite gatherings in the Med - The Perini Navi Cup held annually at the prestigious Yacht Club Costa Smeralda in Sardinia.

The interior accommodation is divided into three areas - Saloon and dining on the main deck, crew accommodation on the lower and forward area with Owner and Guest cabins in the lower midship deck. All guest cabins are accessed from a central foyer with the owners full beam cabin aft, featuring a king sized bed and twin bathrooms. The port side bathroom offers a spa, while the starboard bathroom a multi-jet shower.

A second exit leads from this starboard bathroom to the main deck via an aft spiral staircase. An owners study completes the master suite. Opposite the owners study is the VIP cabin, also with king size bed and multi-jet shower. The remaining two guest cabins comprise twin singles with pullman berths and full en-suites.

Fully refitted in 2016 - totally repainted, engines rebuilt and much more, Piropo IV is ready for cruising.

Features include:

Manoeuvring is straightforward with twin 600 hp MTU engines, Twin Disc gearboxes, Zoller bow-thruster and Berg hydraulic variable pitch propeller systems.

Nine electro-hydraulic power packs ensure plenty of power for all the yachts systems.

Twin Northern Lights Generators - Hours approx 16,000 - provide the main power for the yachts systems and accommodations, with a third Northern lights smaller generator fitted forward for quieter use.

Perini custom masts held in place by Nitronic 50 Stainless rigging, North sails - 2016 - and 8 x Perini custom captive reel winches to control them with ease, together with twin Antal Electric winches.

Condaria Chilled water air-con system - provides 300,000 BTU of cooling.

Refrigeration system is extensive with multiple compressors providing redundancy for the refrigerated cabinets, drawers and cold room.

The galley features Miele, Smeg, Electrolux, Kenwood appliances and a Mareno fast freezing machine. A double set of Miele washers and dryers complete the laundry.

Twin Idromar 140 litre per hour water provide full freshwater supply security.

Toilets are all Vacuum with a Hamman sewage treatment plant.

Alfa Laval fuel separation plant.

Compressed air system with two compressors fitted to operate the air-horn and pneumatic exhaust valves for the engine and generators also service the Bauer Dive compressor.

The navigational suite composes of B & G, C.Plath, Furuno, Sperry and more.

The instrumentation is repeated at various stations throughout the yacht including the master suite.

At Anchor held securely in place with her twin Pool 500 Kg anchors and 165 m of chain on each coupled with a Nanni two speed electric windlass for ease of operation.

Stern to mooring is simplified by twin aft mounted Nanni hydraulic winches allowing use of the manual passarelle and side boarding is made easy with the Scala Reale boarding / bathing ladder.

Forward is the Opac Mare 1200 kg deck crane to operate the two RIBS, one being a BWA Nautica Sport 18 - new in 2016 and the second being a Zodiac 5.3 m, both powered by mercury outboards.
