Established in 1996, Izmir Shipyard is a builder with a focus on high performance vessels of Aluminium or HDPE construction.

Stock designs include patrol boats, pilot boats, workboats, and utility crafts for commercial and public customers. Over 50 vessels have already been delivered and SeaBoats are proud to market them all over the world.

IZ 900 is the smallest of the Passenger Craft Series, and is an innovative, eco-friendly and cost effective solution for commercial operators of various sectors. The boat is characterized by high safety standards, compact design and efficient layout for a comfortable journey.

Combining a high level superstructure for greater visibility, ease of maneuvering as well as a low GM for the best stability for safest operations, IZ 900 is an excellent HDPE passenger boat. IZ 900 was designed carry up to 14

passengers in rough seas even around places without proper docking facilities. The vessel can take passengers both from the bow and the aft and has a life cycle of 30+ years without requiring any major maintenance or painting.
