Note	40 tons
Location	Melbourne, Australia
Broker	Peter Cookson peter.cookson@seaboatsbrokers.com +61 429 543 180
Price	Reduced to AUD 650,000 excluding gst

Owners would like to highlight the flexibility of this unique vessel. She is a low draft vessel combined with a low air draft, making her exceptionally useful for river cruising where there are low bridges and shallow channels. In addition because of her beam she is an excellent sea boat and the Owners have used her in the open waters of Port Phillip Bay where beam seas would make the ride uncomfortable on many vessels. The vessel is not equipped with a fixed galley as this would take up space which is better used for passengers. When used for catered functions it is easy to set up temporary catering facilities. Owner feel that the flexibility that the vessel offers will make her a very useful addition to any tourist fleet.

Potential buyers should note that due to her seakeeping capabilities she could be relocated to anywhere in Australia on her own bottom with a possibility that she could sail to New Zealand.

SPECIFICATIONS:

Built: Launceston, December 1986

Material: Aluminium hull, water ballast tanks

Length: 20 metres

LOA: 21 metres

Beam: 6.8 metres

Draft: 1.2 metres

The owner comments:

I would like to emphasise the versatility of this craft as it is not purely a function vessel. It doubles as a tourist sightseeing vessel or to transfer large numbers under low bridges. The sightseeing /educational nature is usually active Monday to Friday with occasional private functions for all occasions, weekends and at night.
