**Price** POA

With all the great benefits found on the 10.5m PRO model of a classic high sheer bow, reinforced deep V hull, it comes with the added bonus of an extra generous 3.5 meter beam, designed to deliver the ultimate offshore response. Offering incredible design flexibility, from a simple center console for optimal work space to multiple seating arrangements including two rows of bench seating with central isle. From crew and passenger transport to cabin arrangements for all weather protection or overnight accommodations, this flagship model answers the needs of virtually any application.

Depending on speed and load requirements, the 10.5 offers the choice of twin, triple outboards or twin diesel sterndrives or jets.

Ribcraft 10.5 has an cross linked inner matrix construction making her incredibly strong; the layout is to commercial specification. The tubes are bonded to the hull over an extended tube flange that gives them far superior bonding strength between tube and hull than conventional flanges. The end product is an immensely strong hull and tube that meets M.C.A. approval.

Fully customized

Heavy-duty commercial grade construction.
