Additional Information

This is a 35m vessel, cargo ship under the French flag, capable of international voyages.

Vessel is very versatile: good for long distance (offshore use), fast assistance, low consumption.

It's good for urgent transport of dangerous goods (not possible by airplane), or special delivery at sea (for example spare parts for ships broken down offshore).

For scientific survey, drone survey, hydrographic survey and meteor survey it's ok. They could replace a big scientific vessel and make almost the same job. For towing, it's ok for objects of until 700 tons. Owners have always a team of divers onboard.
