

## **Giuseppe Filippone**

**Naval Architect**

**Email: [giuseppe@maritimeiq.net](mailto:giuseppe@maritimeiq.net)**

Giuseppe Filippone is a Naval Architect, Mechanical Engineer, and Yacht Designer who is globally recognized as an expert in vessel design and project management for vessel construction.

Over his long career Giuseppe has honed his expertise in boat design, vessel construction management, as well as the overhaul process. His experience as a designer and project manager is very diverse. He has worked on a large range of vessels including small wooden dinghies, fast GRP sportfishing boats, commercial ferries, and a variety of workboats. Giuseppe ran an independent design office and often worked in cooperation with other designers in around the world. He has built strong relationships with many shipyards, shipbuilding regions, and a variety of flag states.

Giuseppe hails from Sicily, but has worked abroad for most of his life. He has completed studies Mechanical Engineering and a Yacht design course at Westlawn.
