Aluminium construction. The vessel is 65 ft long and 35ft wide with two Caterpillar diesel engines. Fuel capacity in two tanks is 6500 gallons and vessel cruises at 14 to 15 knots and burns 35 gallons per hour per engine. It was apparently a pilot boat but is first class inside and out and could maybe be retrofitted as a luxury yacht. Currently it sleeps 12 people in 6 cabins with 2 bunks in each - individual air conditioning in each cabin. There are two bathrooms and one shower. It rides very smoothly with self adjusting equipment to go in rough seas. Built in 1993 but engines have been rebuilt and whole vessel has been meticulously maintained - Original cost was \$6+ million.
