Price POA

LXT88 is more than just a style and aesthetics, it is also a candidate project to be a representative of luxury and speed. Inspired by the aerodynamics of super sport cars, the concept is based on two innovative elements that stand out from its segmented competitors: Speed and Dynamism. The MTU 1600 V12 engine ensures that the yacht reaches an impressive speed of 42 knots, while its large volume guarantees maximum comfort to its users.

The finely thought-out details on its surface carry performance to the next level, while at the same time succeeding in projecting power and dynamism.
