ADDITIONAL INFORMATION

OTHER DETAILS

Road transportable modular Jackup barge comprising of eight Duo pontoons and two Quadra pontoons. In her current configuration two blocks of four barges are joined together along their longest axis. The two Quadra barges are joined to the short ends to form a single barge of 12m x 18m excluding the spud leg arrangements. Can be assembled by three crews and a mobile 80 ton crane over a typical working day shift.

Some newer pontoon sections were added in 2015

It has 2 x moon pools of 330mm each which make it ideal for Site Investigation works, but is also suitable for piling, crane barge, diving platform etc.

Legs: 18m long with 762mm outside diam and 25mm wall thickness

Height 1.52m Draught (unladen) 0.36m
