Beam	4m (13ft 1in)
Draft	0.8m (2ft 7in)
Location	ex factory (Turkey)
Broker	Giuseppe Filippone giuseppe.filippone@seaboatsbrokers.com +39 329 886 8343
Price	POA

Established in 1996, Izmir Shipyard is a builder with a focus on small to medium size vessels of HDPE construction.

Stock designs include patrol boats, pilot boats, workboats, and utility crafts for commercial and public customers. Over 50 vessels have already been delivered and SeaBoats are proud to market them all over the world.

The shipyard has invested heavily on HDPE technology and can now deliver any of the stock boats in just a few weeks from order. Moreover, HDPE can offer a number of advantages: unsinkability, long life (no corrosion of any kind), shock absorbing, resistance to marine growth (no bottom painting required).

IZ 1300 is available in Patrol Boat or Pilot Boat configurations. Classified by RINA (or Turkish Loyd) the vessel has a build time of just 16 weeks.

Combining a high freeboard forward and low aft platform, this innovative design allows patrol or pilot work to be carried out in a very safe and comfortable manner. This HDPE vessel was designed to carry heavy cargo and

operational equipment on the aft cockpit while also having a comfortable cabin arrangements for long term operations. No structural maintenance would be needed nor any painting or antifouling ever.

Standard power is 2 x diesel engines (FPT N67) with traditional straight drive propulsion. Speed is over 30 knots with 2 X 309 kW .

Built to be strong and reliable IZ 1300 is a perfect choice if you require a safe and versatile platform, able to perform in all sea-conditions.

The details of all vessels are offered in good faith but we cannot guarantee or warrant the accuracy of this information nor warrant the condition of the vessel. Any buyer should instruct their agents, or their surveyors, to investigate such details as the buyer desires validated. This vessel is offered subject to sale, price change, location or withdrawal without notice.
